

HOW HEALTHY ARE YOUR CUSTOMERS?

IT MIGHT BE TIME FOR AN ANNUAL FILE CHECK-UP

NACM Commercial Services not only sells the NACM National Trade Credit Report, but we are a reseller for the other three major credit reporting agencies. Credit reporting agencies each have their niche, and each user has their preferences, but sometimes you need to look at more than one. Choices are good. When Updating files, sometimes you want a second opinion. Do you have the right agency for your needs?

NACM Trade Credit Report

By NACM Members • For NACM Members • Built from trade experience, the basis of most trade credit decisions. The National Association of Credit Management (NACM) supports businesses as they make decisions to sell goods and services on credit. When it comes to providing businesses with factual, accurate, fresh and relevant information, the NTCR is the right choice.

Experian Reports

We offer business credit reports & consumer reports for accessing information on the principle of a company. These include payment history; credit scores and risk; liens and judgments; UCC's; banking information; collection data and financials on publically held companies. Also, Experian has added European real-time international reports.

Dun & Bradstreet Reports

We offer domestic and international reports. Domestic reports include background information; payment history & trends; scores; public filings; banking; and financials with a strength in corporate family tree information. International reports may include company history; risk assessment; rating; public filings; financial information; and special events.

Equifax Reports

We provide domestic and Canadian reports. Domestic reports include business identification information; payment trends; legal, lien and collection detail; risk scores; industry and financial trade details. You may drill down for additional display of credit history from each data contributor. A 60-month history grid is included, which contains consecutive payment performance codes.
