

*You want me to*  
**WHAT?**

YOU WANT ME TO **SHARE INFO** ON **MY CUSTOMERS?**  
WITH **MY COMPETITORS??**

***WELL, YEAH.***

It seems like a crazy concept at first, but NACM Commercial Services hosts industry credit groups designed for the credit manager. These groups are comprised of firms from the same industry who meet on a regular basis to exchange credit information, discuss industry and credit trends, and network. Group members receive business credit reports and professional education that help them identify credit risk. All group meetings are monitored by NACM staff, trained in antitrust law, to ensure the information exchanged is permissible and confidential. It's a safe forum to receive and share current and pertinent credit information you won't find anywhere else. No jokes, just good stuff.
